INTERNATIONAL BUSINESS LAW

This course deals with the international dimension of business law. It focusses on private international law, European Union law and the provisions of French law that concern international affairs.

The main objectives of the course are:

- to know the legal framework of international business law,
- to negotiate and draft secure international contracts,
- to prevent or manage at best international litigations,

- to master the major legal issues of international business practice (commercial law, company law, joint venture, investments, imports, exports, etc.).

This course is intended for international learners (French and foreign) who master the basics of law or who have never studied law. There is no prerequisite.
